Appendix B: Table of contents of volume I

Preface ix

I Moshé Flato, the man and the scientist

Program of the inaugural meeting 2
Speeches and Messages 3
Daniel Sternheimer 23
Moshé's Memoirs

Daniel Sternheimer 31
In retrospect: A personal view on Moshé Flato's scientific legacy
Curriculum vitae of Moshé Flato 43
The publications of Moshé Flato 45

II Applications of sciences to insurance and finance

Program 56

Yvette Chassagne 57
Le Conseil scientifique de l'UAP et ses réalisations

Erik Taflin 59
A new method for optimal equity allocation and portfolio selection

Jean-Claude Simon 73
The recognition of handwriting

Hélyette Geman 81
From Bachelier and Lundberg to insurance and weather derivatives

III Quantization, deformations, and symmetries

Yakir Aharonov and Benni Reznik 99
On the Bohr-Rosenfeld measurability problem for non-linear systems

Louis Boutet de Monvel 109
Star-produits et star-algèbres holomorphes

Alain Connes and Henri Moscovici 121
Cyclic cohomology and Hopf algebra symmetry

Ludwig Faddeev 149
Modular double of a quantum group

Boris Fedosov 157
On G-trace and G-index in deformation quantization

Sergio Ferrara and Alberto Zaffaroni 177
Superconformal field theories, multiplet shortening, and the $AdS_5/SCFT_4$ correspondence

Jürg Fröhlich, Tai-Peng Tsai, and Horng-Tzer Yau 189
On a classical limit of quantum theory and the non-linear Hartree equation

Christian Frønsdal 209
Singletons and neutrinos

Simone Gutt 217
Variations on deformation quantization

Maxim Kontsevich and Yan Soibelman 255
Deformations of algebras over operads and the Deligne conjecture

Bertram Kostant 309
A generalization of the Bott-Borel-Weil theorem and Euler number multiplets of representations

Elliot Lieb and Michael Loss 327
Self-energy of electrons in non-perturbative QED

Wilfried Schmid 345
Automorphic distributions for SL$(2,\mathbb{R})$

Jacques C. H. Simon and Erik Taflin 389
Nonlinear relativistic evolution equations: Survey of a new approach

Leon A. Takhtajan 403
Quantum field theories on an algebraic curve

Program of the conference 417
List of participants 421
Committees 425
Index 427
